STAUFFER AND SUSTAINABILITY... IT JUST MAKES SENSE

Sense5 Bio is Stauffer's latest edition to our Sense Disposable Nitrile Gloves. This 5-mil forest green disposable glove comes with the ingredients necessary for biodegrading while still offering the same protection and comfort as our other Sense gloves. Sense5 come with a fully textured surface that delivers excellent grip and 5-mil finger thickness. The proprietary nitrile offers durability and tactile sensitivity that is ideal for industries such as food processing, general maintenance and assembly. Each pair of Sense5 gloves is 80% biodegradable in 2 years ASTM D5526 tested.
